

## PETS CONDITIONS

Dear customer,

For our establishment, pets are a very important part of families. We are a Petfriendly hotel but you need to be informed about the special conditions:

1. We permit only one pet per room. The weight maximum is 10 kg, small size and not potencial dangerous.
2. You must pay the extra cost, 10€ per night directly on the reception.
3. Access to areas such as cafeteria, lounge, lounge, buffet are not allowed and in its transit it is very important that they are tied.
4. For everyone's safety, your pet should never be left alone in the room. If you have to be absent exceptionally, you must always leave it in your carrier (the hotel does not have carriers available to the client), so that Technical or Cleaning Services can access your room without complications. Also, don't forget to always leave a contact phone number at the reception desk in case any incident arises.
5. For the cleaning of the room, the guest must notify reception and the animal must be outside the room at the time of cleaning.
6. The customer must have his pet's passport.
7. The hotel is not responsible for any damages, incidents or incidents that may arise during the stay and reserves the right to refuse any contradictory situation or breach of the regulations.

## RESPONSIBLE STATEMENT

I declare responsibly that my pet maintains the conditions of hygiene and animal health for the coexistence and safety of people, complying with the vaccination schedule required by law (order of April 19, 2010 BOJA 8.1) and the internal regulations of the hotel described above.
